

PLATINUM BAY WINDOWS

Bay Windows consist of a large window between two end units that are typically a Casement or Hung window. Bay windows project out from the wall and can change the look of a room. You can add a beautiful seating area to your Bay window for a breathtaking view.

Available in standard or custom angles. Bay 30 and 45 degree and Bow windows 10 and 15 degree.

Foam filled couplers for all factory assembled bay and bow windows for added energy performance.

Available in your choice of finishes, plywood, oak, birch and arborite plus insulated head and seat available.

Skyhooks anchoring your bay or bow providing additional strength under the soffit.

Clean, seamless interior finish with full factory assembly available.

Also available with our interior designer finishes, natural or cherry oak.

ALSO AVAILABLE IN BOW WINDOWS.

Bow Windows consist of four or more windows joined together with a gradual curvature, providing an elegant finish to your home.
